

# Environment 2020

The Worcester Awards for Excellence

Focus on the environment.

Installer Darren Grant of Darren Grant Plumbing and Heating, installed two Greenstar CDi Classic regular boilers and a Greenstore 210L unvented cylinder to dramatically increase the energy efficiency of a large office in Cardiff.

## Environmental excellence.

The problem of global warming and its effect on our environment is something Worcester takes very seriously. This is reflected in our A-rated energy efficient Greenstar boilers as well as our commitment to renewable technologies such as our Greenskies solar water heating systems and Greensource air source heat pumps.

### **What are the Environment 2020 Awards?**

The Environment 2020 Awards were established to promote awareness of energy efficiency and best practice within the heating industry. This is your chance not only to make a difference to the environment but also to be recognised and rewarded for it. So whether you're an installer or specifier, this is your chance to win a great prize and protect the environment.

### **How do I enter?**

Entry to the competition is very simple. If you are a professional installer, private house builder, specifier for a housing association or local authority, then you can enter. Simply install any new energy-efficient boiler or renewable technology from the Worcester range and fill in the attached form. Alternatively you can pass the details of your installation (including any photos you may have) to your local Worcester representative.

*Prizes include £1,000 worth of Love2Shop vouchers and an official Environment 2020 Best Practice Trophy.*

The winning entry from Weaver Vale Housing Trust featured Greenskies solar thermal panels and Greenstar high efficiency boilers, which were installed into their £4.3million development in Frodsham, Cheshire.

#### **What type of awards are there?**

The awards are given to the product installation that is considered to have the greatest positive impact on the environment. One installation from each of the following product groups will be awarded an "Installation of the Year" title:

- Greenstar gas-fired boilers
- Greenstar oil-fired boilers
- Greenskies solar water heating
- Greenstore and Greensource heat pumps
- Total system solution (a combination of Worcester products installed together).

Entries will be gathered throughout the year and a special panel of environmental experts and industry specialists will consider all entries on their individual merits and allocate the awards accordingly.

#### **What do I win?**

The winners will be invited to receive their awards at an Awards Luncheon. The prizes for the product categories as listed above will be **£1,000 worth of Love2Shop vouchers** which can be spent in thousands of shops, restaurants and attractions across the UK. You can also use them for package holidays, flights, cruises, hotels and much much more – so everyone will find something they love. The winning specifier will be presented with an official **Environment 2020 Best Practice Trophy**.

So if you think any recent completed installation or specification using products from the Worcester range has special merit and should be considered for an award, simply complete and return the entry form, with any available photographs, plans or drawings.

**BOSCH**  
Invented for life

## Worcester energy homes.

*Worcester energy homes is an on-going project from Worcester, showcasing installations in real life homes around the country. In an energy home, the energy-saving benefits of high-efficiency and renewable heating solutions are monitored to enable the family to reduce its carbon footprint. To hear the homeowners' stories visit [worcesterenergyhomes.co.uk](http://worcesterenergyhomes.co.uk)*

## Our commitment to a better future.

As a leading manufacturer, Worcester, Bosch Group is totally committed to fulfilling its environmental responsibilities. This applies not only to helping conserve non-renewable energy resources by designing renewable technologies which are as energy efficient as possible, but also to methods of production, administration, development, recycling and disposal.

## Children's Art Competition.

If you have a budding artist or photographer at home – here's a chance for them to win **£500 worth of Love2Shop vouchers!** The Environment 2020 Awards include a special art competition for children. There are three age groups: 0-6, 7-11 and 12-16 years old. For more information and to download an entry form, visit our website.
