## **TECHNICAL BULLETIN**

## **PRODUCT: ALL WORCESTER GREENSTAR GAS AND OIL-FIRED BOILERS**

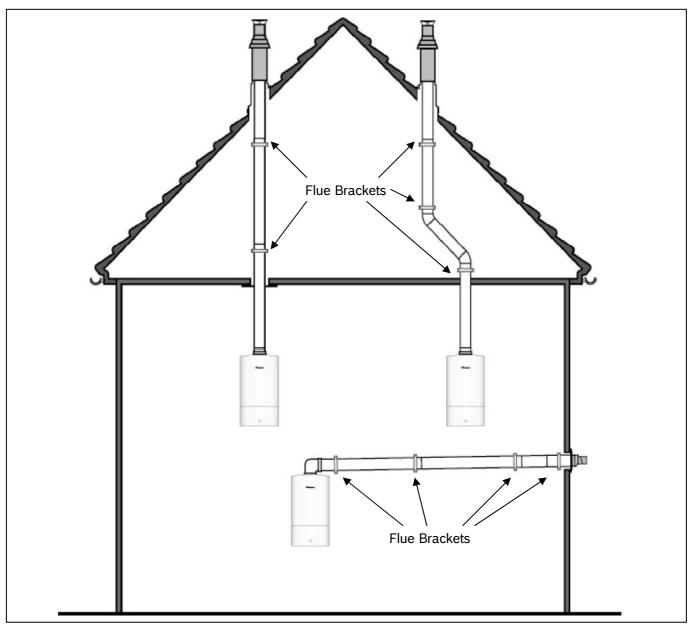

## **SUPPORTING OF FLUES:**

Worcester literature for the current Greenstar range of appliances states that the flue must be fitted & terminated in accordance with BS5440 part 1.

To assist in complying with the standard, and in the absence of clear guidance for room sealed flue arrangements we have provided the following information. Flues require adequate support throughout their entirety. For example if there is a need to remove the appliance to carry out maintenance work, the flue should remain intact and able to support itself.

As guidance we would advise supporting the flue **every one metre and changes of direction** for both horizontal & vertical installations. Examples provided (*Fig 1*).

Part number for the 100mm flue bracket is 7716 191 092 Part number for the 125mm flue bracket is 8716 110 272

Whilst it is always our intention to fully assist, it is essential to recognise that all information given by the company in response to an enquiry of any nature is provided in good faith and based upon the information provided with the enquiry. We recommend that advice should always be checked with your installer or contract partner. Consequently, the company cannot be held responsible for any liability relating to the use or repetition of such information or part thereof. In addition, whilst making every reasonable effort to monitor the performance and quality of our supply, installation and service network, we do not accept responsibility for the workmanship or operation of any third party company that the company may have promoted either in conversation, e-mail or other communication. Similarly, the views and opinions expressed in communication with individuals within the company may not reflect that of the business as a whole.
