

Bosch Climate Air Conditioning Units

Providing both heating and cooling, our air conditioning range is suitable for a wide range of applications.

Overview of features

Throughout this guide you will see the below icons which highlight the features and modes that are included with each unit.

USER FRIENDLINESS

WiFi

Control the unit with a smartphone via the Bosch HomeCom Easy App (Optional Connect Key G10 CL-1 as well as, depending on the model, a Gateway Connector G 10 CLC accessory is required).

Auto restart

The air conditioning system will not forget any settings in the event of a power cut.

On/Off timer

On/off timer is very easy to adjust. The unit will automatically switch on or off after the set time.

Weekly timer

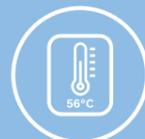

The unit will switch on or off within specified time slots on specified days of the week.

AIR QUALITY

'i-clean' mode

Eliminates up to 99% of bacteria by heating up the evaporator to 56°C.

'Low ambient cooling' mode

Provides cooling even at low ambient temperatures.

'8°C heating' mode

Protection against freezing inside the room, maintaining a temperature of +8°C.

'Dry' mode

Removes high humidity from the room, particularly useful on muggy days.

COMFORT

'Silent' mode

Reduces noise emitted by the indoor and outdoor unit when in use.

'Follow me' mode

Indoor unit measures room temperature via a sensor in the remote, maintaining a consistent temperature inside the room.

'Wind avoid me' mode

Avoid air blowing directly on you by using the remote controller to adjust the wind direction towards the ceiling.

'Self cleaning' mode

Prevents mould from forming by using plasmacluster ions in the indoor unit.

Anti-corrosion

Special anti-corrosion gold coating of fins.

ENERGY SAVING

'Gear' mode

3 levels of operating power to lower energy usage.

'ECO' mode

The unit works with a lower level of energy consumption.

Improve the climate quality

Climate 3000i comes with a full set of features to optimise the climate in your customer's home or office.

*Terms and conditions apply.

See page 2 and 3 for more information on the features included with this unit.

Efficient

Our Climate 3000i is a reversible air conditioning unit which provides heating and cooling from the same source. It has an ErP rating of A++ for cooling and A+ for heating, giving your customers comfort with low energy consumption.

Peace and quiet

Climate 3000i's silent function reduces the sound level of the indoor and outdoor unit to give your customers and their neighbours a good night's sleep.

Breathe in clean air

The 'i-clean' function eliminates up to 99% of bacteria. Also the double filtration system eliminates odours, harmful gases and volatile organic compounds in the air.

At a glance

- ▶ Reduces power consumption with 'ECO' mode and 'Gear' mode features
- ▶ Will work according to the temperature in your location inside the room by activating the temperature sensor built in the remote controller with 'Follow me' feature
- ▶ Control the air conditioning unit with a smartphone (Connect Key G10 CL-1 accessory is required).

Nominal values were measured according to EN14511 and EUROVENT registered.

The data of SEER and SCOP are based in accordance with the measurement standard EN14825.

WiFi solution with Bosch HomeCom Easy app

Control your Bosch air conditioning units anywhere, anytime.

Connectivity

Connect your Bosch air conditioning units to Wi-Fi with an optional Bosch gateway accessory, the 'Connect Key G10 CL-1' and 'Gateway Connector G 10 CLC' (depending on the model), and control your air conditioning unit with the Bosch HomeCom Easy app.

Easy to deal with

Set operating mode, change set temperature, air flow direction, set weekly time schedules, adjust fan speed and control many more features for maximum comfort.

Maximum comfort

Turn on your air conditioning unit before leaving work and come to a perfectly cooled/warmed room when you get home.

Great indoor climate with just one outdoor unit

Up to five indoor units can be connected to one outdoor unit, saving you space and providing your customer's comfort for multiple zone applications. Wall-mounted and cassette indoor air conditioning units are available.

*Terms and conditions apply.

See page 2 and 3 for more information on the features included with this unit.

Maximum flexibility

Different types of indoor units (wall-mounted and cassette) with various outputs can be connected to one multi-split outdoor unit in different combinations - a great solution for a home and small office.

Sleep well

In 'Sleep' mode, the set temperature is automatically adjusted to ensure that there is a pleasant indoor climate during the night.

Easily flexible

The Climate 5000 multi-split can cool at outside temperatures of -15°C to +50°C and therefore offers the right solution for every application.

At a glance

- ▶ Control their Climate 3000i indoor air conditioning unit with a smartphone (Connect Key G10 CL-1 accessory is required)
- ▶ Low sound power level
- ▶ SEER values up to 6.1 SCOP values up to 3.8.
- ▶ Combination ratio up to 140%
- ▶ Purifying filter that eliminates up to 95% of dust particles, smoke, odour and pollen providing your customers with cleaner air.

1) Only available with Climate 3000i indoor units.

Multi-split System: Combination table

Look for the combination of indoor units you would like and find which outdoor unit you need.

Example: If you want to install 3 indoor units with outputs 3.5 kW, 3.5 kW and 5.3 kW, your combination is 3.5 + 3.5 + 5.3.

In the table below, your correct combination is either Bosch Climate 5000 MS 36 OUE or MS 42 OUE.

You can choose Climate 5000 MS 36 OUE for exactly what your room requires or you can choose to invest in MS 42 OUE if you are planning to expand to another room in the future.

		Climate 5000 MS 18 OUE	Climate 5000 MS 27 OUE	Climate 5000 MS 36 OUE	Climate 5000 MS 42 OUE
Max length for all rooms	m	40	60	80	80
Max length for one indoor unit	m	25	30	35	35
Max. height difference between indoor and outdoor unit (A)	m	15	15	15	15
Max. height difference between indoor units (B)	m	10	10	10	10

Please adhere to installation lengths.

Distance between indoor and outdoor unit (A) must be smaller than 15 meters.

Distance between indoor units (B) must be smaller than 10 meters.

Comfort in wider spaces

Our Climate 5000 Large split 4-way flow cassette air conditioners offer comfort for wider spaces such as small offices and retail shops. The indoor units ensure the conditioned air is distributed evenly and efficiently.

*Terms and conditions apply.

See page 2 and 3 for more information on the features included with this unit.

Maximum flexibility

Our large split cassette units can be connected to BMS systems: Modbus RTU, Bacnet and KNX.

The units are also compatible with third party components such as Intesis gateways - please note we do not supply third party components, please contact your local Intesis dealer directly.

In addition, our 4CE cassette units have independent louvre adjustment control.

Breathe in clean air

Purifying filter eliminates 95% of dust particles, smoke odour and pollen providing you with cleaner air.

At a glance

- ▶ Drain pump and remote controller included
- ▶ All cassette units can be controlled with a smartphone¹
- ▶ Optional wired controller CRC R-1
- ▶ LED screen on the indoor unit
- ▶ Turbo mode for rapid cooling and heating
- ▶ Easy and quick to service
- ▶ Low noise levels and improved air velocity with larger air outlet area.

1) Optional Gateway Connector G 10 CLC (coming soon) and Connect Key G-10 CL-1 are required.
2) Weekly Timer only available via optional wired room controller or via optional Bosch HomeCom Easy App.

When flexibility meets comfort

Our Climate 5000 Large split ceiling/floor unit is the perfect solution for residential and commercial applications such as offices, conservatories and retail shops.

*Terms and conditions apply.

See page 2 and 3 for more information on the features included with this unit.

Maximum flexibility

Our large split ceiling/floor unit can be installed vertically on the floor if you have a room without a double ceiling. Thanks to its sleek design it will blend into the background nicely. It can also be installed horizontally on the ceiling without any modification if floor space is required.

3D Airflow

The directional air outlet moves horizontally and vertically to direct air flow to every corner of the room.

Breathe in clean air

Purifying filter eliminates 95% of dust particles, smoke odour and pollen providing you with cleaner air. These units are also equipped with a bio-filter which consists of specialised biological enzyme and HEPA filter - catching bacteria, fungi and microbes and eliminates bacteria.

At a glance

- ▶ Drain pump and remote controller included
- ▶ Optional wired controller CRC R-1
- ▶ ECO and Gear modes to save energy
- ▶ i-Clean feature ensures the evaporator surface is free of mould, bacteria and fungi
- ▶ Turbo mode for rapid cooling and heating
- ▶ Remote on/off terminal
- ▶ LED screen on the indoor unit.

1) Optional Gateway Connector G 10 CLC (coming soon) and Connect Key G-10 CL-1 are required.
2) Weekly Timer only available via optional wired room controller or via optional Bosch HomeCom Easy App.

Alternate solution to large area comfort

Our Climate 5000 Large split duct has a slim and compact design which enables easy installation in challenging locations and ceiling spaces.

*Terms and conditions apply.

See page 2 and 3 for more information on the features included with this unit.

Flexibility

Our slim design combined with a rear or bottom positioned air inlet can match different applications, even in the tightest space.

Our large split duct units can be connected to BMS systems: Modbus RTU, Bacnet, KNX and Airzone motorised plenums. The units are also compatible with third party components such as Intesis gateways - please note we do not supply third party components, please contact your local Intesis dealer directly.

High Performance

Climate 5000 Large split duct units have an external static pressure up to 160Pa, depending on the model.

The built-in drain pump can pump the water from condensation up to 750mm.

Breathe in clean air

The air conditioning units are easy to install, quiet when in operation and has a purifying filter that eliminates up to 95% of dust particles, smoke, odour and pollen providing you with cleaner air.

At a glance

- ▶ Drain pump included
- ▶ Wired controller and remote controller included
- ▶ Alarm output terminal
- ▶ Remote on/off terminal
- ▶ Turbo mode for rapid heating and cooling.

1) Optional Gateway Connector G 10 CLC (coming soon) and Connect Key G-10 CL-1 are required.

2) Weekly Timer only available via optional wired room controller or via optional Bosch HomeCom Easy App.

Twin Systems

Bosch Climate 5000 Large split units can be installed in twin systems, on selected models only, giving you flexibility for different applications.

*Terms and conditions apply.

See page 2 and 3 for more information on the features included with this unit.

Twin System

Bosch Climate 5000 Large split cassette, duct and ceiling floor units can be connected to a single large split outdoor unit and operated in multi-split configuration. This is particularly useful for open spaces where two indoor units are required such as offices or shops. Twin system can also offer a solution where the space for multiple outdoor units is limited.

Operation

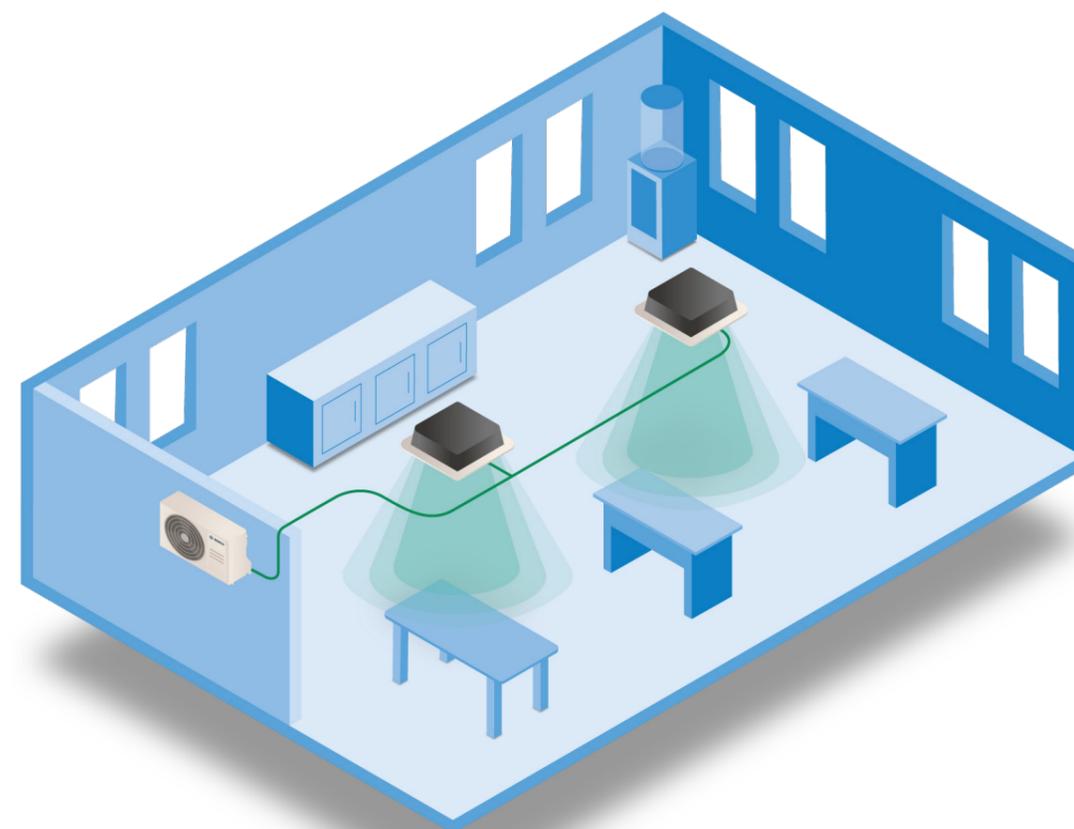

Two identical indoor units are required for a twin system. Both indoor units will operate together at the same time in heating or cooling mode.

One indoor unit will act as master and other one as secondary. Secondary indoor unit will mirror the master unit, as it is not possible to set different settings for each unit in a twin system.

At a glance

- ▶ One outdoor unit connected to two identical indoor units
- ▶ If Wi-Fi connectivity is required, optional Gateway Connector G 10 CLC (coming soon) and Connect Key G-10 CL-1 is required only for the master indoor unit
- ▶ Indoor unit types can't be mixed in a Twin system. Available models and configurations can be found on the table opposite
- ▶ ECO, Gear, i-Clean, wind avoid me features are not available in a twin system.

Climate 3000i

Domestic properties, summer houses, garden houses, conservatories, home offices, small offices and shops, any room in your house.

Self cleaning mode, breeze away mode, silent outdoor unit mode, follow me mode, anti-corrosion, gear mode, eco mode, dry mode, 8°C heating mode, low ambient cooling mode, timer, i-clean, auto restart, wifi

Cooling: 2.6 / 3.5 / 5.3 / 7 kW
Heating: 3 / 3.9 / 5.6 / 7.5 kW

Climate 5000 Large split: Duct

Small commercial properties such as offices and retail shops – providing comfort throughout the year.

Auto mode, ventilation mode, cooling mode, dehumidifier mode, heating mode, turbo mode, follow me, automatic airflow test, silent mode, weekly timer, ESP setting, alarm output terminal, on/off signal terminal, wifi

Cooling: 3.5 / 5.3 / 7 / 8.8 / 10.5 / 12.5 / 14 / 16 kW
Heating: 3.8 / 5.6 / 7.6 / 9.4 / 11.7 / 13.5 / 16.1 / 18.2 kW

Climate 5000 Large split: Ceiling/Floor

Heating and cooling for small properties such as offices, retail shops even for conservatories – providing comfort throughout the year.

Auto mode, ventilation mode, cooling mode, dehumidifier mode, heating mode, bio filter, horizontal and vertical airflow, turbo mode, follow me mode, silent mode, breeze away mode, ECO mode, Gear mode, i-clean, weekly timer via wired controller, alarm output terminal, on/off signal terminal, LED screen, wifi

Cooling: 5.3 / 7 / 10.5 / 14 / 15.8 kW
Heating: 5.6 / 7.6 / 11.7 / 16.1 / 18.2 kW

Climate 5000 Large split cassette

Heating and cooling for small properties such as offices and retail shops – providing comfort throughout the year.

Auto mode, ventilation mode, cooling mode, dehumidifier mode, heating mode, turbo mode, follow me mode, sleep mode, breeze away mode, ECO mode, Gear mode, i-clean, weekly timer via wired controller, alarm output terminal, on/off signal terminal, LED screen, wifi

Cooling: 3.5 / 5.3 / 7 / 8.8 / 10.5 / 12.5 / 14 / 16 kW
Heating: 3.8 / 5.6 / 7.6 / 9.4 / 11 / 13.5 / 16 / 18.1 kW

Climate 5000 multi-split

Domestic or small commercial properties with up to 5 rooms.

Self cleaning mode, breeze away mode, follow me mode, dry mode, 8°C heating mode, low ambient cooling mode, timer, auto restart, wifi**

Cooling: 5.3 / 7.9 / 10.5 / 12.3 kW
Heating: 5.5 / 8.2 / 10.6 / 12.3 kW

3000i indoor units only

*Optional Connect Key G10 CL-1 is required
**Optional 'Connect Key G10 CL-1' and 'Gateway connector G 10 CLC' (coming soon) are required.
